

Apiary at Abundant Life Farm

Loving the earth one honeybee at a time

The Importance of Bees

- * BEES AND OTHER POLLINATORS POLLINATE PLANTS THAT CONTRIBUTE UP TO 90% OF THE WORLD'S FOOD
- * EVERY THIRD SPOONFUL OF FOOD DEPENDS ON POLLINATION
- * A THIRD OF THE WORLD'S FOOD POPULATION DEPENDS ON BEES

Bee Fence

Bee Keeping

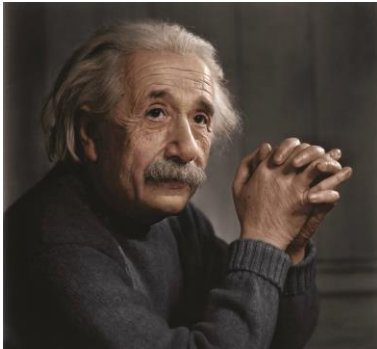

Watch out for bee stings

Thank You

- The Farmer and The Del

“If the **bee** disappeared off the face of the Earth, man would only have four years left to live.”

(Quote attributed to **Albert Einstein**)
